

FJ. Hotels

FJ. Hotels Co., Ltd., was established as one of the group companies of Fukuoka Jisho Co., Ltd., (general developer) in 1978 and operates various types of hotels from luxury hotels to business hotels. We have been providing Fukuoka with a new style of hospitality and surprises, such as opening the first foreign-financed luxury hotel based on the unchanged passion of the Fukuoka Jisho Group from their foundation: "Make Fukuoka more exciting and more attractive." Recently, we have been developing our original business hotel brand Forza nationwide. Forza will provide hospitality and surprises that customers have never experienced before, which can be achieved by the combination of great hospitality and design cultivated through the operation of luxury hotels and efficient management, a characteristic of business hotels. We will aim to be a company supported by customers and residents in the community for many years to come by keeping our starting point of making Fukuoka in Kyushu exciting and attractive and by providing high-quality hospitality with a sincere attitude during a time of great changes.
